

## List of fuels tested in automatic boilers VERNER

<b>Agropellets</b>	
wheat straw	oat flakes
corn straw	peat
cereal chaff	hay
cereal chaff +pollard	sunflower hulls
chaff of grass seeds	grass seed
barley grain + straw	mix of mill wastes + oilseeds
corn (maize) grain + straw	mix of cakes of sunflower + 70% of hay
triticale grain + straw	mix of hay + 20% triticale
wheat grain + straw	mix of hay + whole barley
cakes of rape	mix of malt + slops
cakes of sunflower	mix of straw + molasses
wheat pollard	mix of sorrel 50% + chaff 30% + grass 20 %
rye pollard	mix of grapevine 80% + sawdust 20%
distillery slops	mix of rye grass + fescue
coffee beans	mix of shives + cannabis
rabbit droppings	horse manure + straw

<b>Wood pellets</b>
sawdust of soft wood
sawdust of hard wood
sawdust with bark admixture

<b>Cereals</b>	
barely	rye tailings
feed wheat	oat tailings
food wheat	corn (maize) CZ
rye	corn (maize) SK
oat	corn (maize) Hungary
barely tailings	corn (maize) Italy
feed wheat tailings	corn (maize) USA
wheat tailings	

<b>Coal</b>
brown coal, walnut 2, grain 10 – 25 mm

<b>Oilseeds</b>	
mustard	
linseed	
rape	

<b>Others</b>	
poppy	mix of poppy 40% + grass seeds 40% + mustard 20%
stones from plums	mix of poppy 50% + grain tailings 50%
peelings of buckwheat	mix of cereal chaff + pea + corn (maize) + weed
fragrant flowers	mix of hay + wood shavings
mix of amaranth 70% + wood pellets 30%	mix of rye 50% + rape cakes 50%
poppy seed	remains from extruded rape (colza)
